Dreaming in Color Luman Deck
by Mindy Sommers

Another deck of cards, you ask? And what is a "Luman deck" anyway? Of course, my opinion is based in this column - after all, this is one of my "tricks." But that **Dreaming in Color Luman Deck** is one of the most strikingly beautiful card sets you'll ever own. This deck was created over a span of seven years by Mindy and Mindy Sommers in Vermont using Glen's intuitive artwork as well as extensive testing to be satisfied that the deck provided the visual stimulation needed to help "unlock the unconscious mind in the Self." Each card in this 60-card deck features a unique piece of art associated with a word, such as "ascension," "forgiveness," "hope," and "nurturing." It comes with a User Guide that explains about the deck, how to use the cards, and the meaning behind each card. In addition to the **Luman Deck**, the Sommers' have also created a **Child's Dream Deck**, dreamcatchers, bookmarks, screeners, and handmade drawing pouches. The vivid beauty of each card, alone, is worth adding this to your own collection and sharing it with others!
